*"This was the best response I have seen generated in my years of promoting in this area. Pam's appearance on A.M. Northwest (TV) was unprecedented. Following the broadcast, she was surrounded by the audience for another hour before being able to leave the station."*

**Susan D. Buckley, President, The Voice of Enthusiasm, Inc. Portland, OR**

*"We've had Pam in as a regular guest on the Morning Show for years, and we're always amazed at the response! The phone lines literally ring off the hook from the time she steps into the studio! Pam is one our very favorite, dynamic, insightful entertaining guests...a gem!"*

**Catherine Remak, Gary and Catherine in the Morning, KLITE 101.7, Santa Barbara**

*"My first encounter with Pam Oslie was several years ago when she came in to the **Lifetime Networks** NYC office for a meeting. The room was filled with staff members eager to meet her and learn more about Aura Colors. She completely blew us away! We were all astounded at the accuracy of her insightful readings of each of us. And now, over four years later, we still talk about that day. We were delighted to feature Pam as one of our experts in our 2011 Year of You campaign on the Lifetime TV website, myLifetime.com. Her dynamic personality and compelling abilities thoroughly impressed our audience and helped make the initiative a success."*

**Eve Lavendier, Producer, Digital Media, Lifetime Networks**

*"Pam is an amazing guest who made our phones ring non-stop (even after she was long gone). I was blown away on how many men wanted to talk to her. She stopped every caller in their tracks with her dead-on readings."*

**Terry Jaymes, Lex and Terry Radio Network**

*"Pamala Oslie was amazing! Teena and I both thought she was entertaining, informative and invigorating. I KNOW our listeners were inspired. AmberAllen Publishing has a diamond author - Ms. Pamala Oslie."*

**Teisha-Vonique Hood, Producer, The Teena Jones Show, KFCD 990 AM Texas Talk Radio**

*"Pamala Oslie is at the forefront of a valuable and innovative approach to understanding people and their different personality types. Her unique information is incredibly insightful and accurate. She was rated one of the top speakers at the International Forum on New Science."*

**Robert L. Sibling, Executive Vice President, International Association for New Science**
